

# Looking for a (socially distanced) fun afternoon?

What could be more fun than planting daffodils at an historic house?

Through the generosity of the *White Plains Beautification Foundation*, the *Percy Grainger House* has been selected to participate in [The Daffodil Project](#).

We are thrilled that 500 daffodil bulbs have arrived at the *Percy Grainger House*! The next step is to actually plant the bulbs. This is where YOU come in. We will mark spaces in the front garden for plantings. We'd love for you to come by and help us put them in the ground. Drop by anytime between 2-5 pm, bring a trowel and bulb planter (if you have them, we have several but maybe not enough for everybody) and dig in. Masks are required. Whether you plant 5 or 50 bulbs you will help the Grainger House usher in Spring 2021 in great style.

The House will be open during "Daffodil Planting" hours, 2—5 pm. Join us for some digging then a complimentary tour at either 3 or 4 pm.

We can't wait for the Big Bloom next Spring!

**Rain Date: Sunday, November 1, same time as above**
